CIRCULAR

Date:28-08-2019

The Internal Quality Assurance Cell (IQAC) of our college in collaboration with the Department of Computer Science (Shift – I) and Department of Computer Applications (Shift- II) has planned to conduct **Certificate Course in Web Designing (CCWD)** for our students.

The certificate course in Web Designing teaches the fundamentals of the ever changing world of web design. Courses go beyond HTML and teach students to write web-based applications that support the rigorous demands of online businesses. Enjoy hands-on instruction while using modern design languages. Students also learn to choose effective solutions for various scenarios on the web. Web Designing is a creative career, highly in demand. As internet usage keeps increasing, more and more businesses want their own websites. A career in web designing is exciting, as every new project brings new challenges and involves a lot of creative thinking.

This certificate course prepares the students for career in e-commerce, IT Sectors or any Organizations/ Institutions where uses or manages web sites internally. Students gain the knowledge and skills for job acquisition by studying theory in the smart class room and participating in Practical application through Computer Laboratory. There is growing demand for web designers to fulfill the requirement in Digital media and e-Commerce.

Upon completion of a certificate program, graduates could seek employment as webmasters, programmers, web designers or web developers. People who do well in this field tend to be very focused and detail-oriented, while possessing a strong creative side. Businesses in virtually every industry have a need for web development, so graduates should have many types of jobs to choose from.

Note: Course materials will be provided after registrations.
